\$42,000 donated toward equipment

Stone Mill Elementary School has received a \$42,000 donation from the DriveTime car dealership on Memorial Drive. DriveTime is one of the school's Partners in Education.

The donation will help provide audiovisual and physical education equipment for the classroom addition and gymnasium expected to open next year and an overhead screen for the cafeteria.

DriveTime has also donated \$4,000 for a tutorial program beginning in January to help Hispanic and Somalian parents learn conversational English and provided \$1,000 and 15 volunteers for the school's fall festival.
